Chathuni Amarasinghe

MARKET SIZE
 **35 %**

TYPE
Idealist

Goals

1. Wants to promote her small job among a lot or crowd with great discount offers.
2. Best value products.
3. Inspirations from fashion stylists.
4. Full product description and product features available on the product page.
5. She wants to add her new dress and bridal sari items to the online market.

Quote

" I am looking for an mobile application where I can sell my dress items easily..." "

Background

Chathuni Amarasinghe is an upcoming business woman and works with people a lot. She is currently single and lives with her parents in Galle. She is still studying and currently pursuing higher education at a private university.

She is a new comer to the business world and currently she maintains a small bridal sari and clothing store as her part time job. And also she is a fashion lover. Because of this pandemic situation she has decided to deliver those items using online platform. Although she was a newcomer to the business world, there was credibility in the majority of her business during that short time. This is because of the quality they have. That's why she decided to continue this business online.

1. When she got a new dress or a bridal sari item, she used to make a post and publish it in to the online market using mobile applications mostly.
